

Relevant. Clinical. Education

Recognized around the world as the authority in clinical chest medicine, CHEST 2010 will feature a learning program in pulmonary, critical care, and sleep medicine. Essential updates on patient care and practice management strategies will keep you at the forefront of chest medicine.

Care Locally. Reach Globally.

Globally relevant health topics will be presented to increase your knowledge, help you treat a diverse patient population, and empower you to follow the lead of the ACCP President Kalpalatha K. Guntupalli, MD, FCCP: **Care Locally. Reach Globally.**

- Sessions addressing global health issues will be presented beginning Sunday, October 31, and will continue throughout the meeting.
- An international faculty will include renowned experts from around the world. Many premier physicians have committed to present at CHEST 2010.
- Networking opportunities with attendees in the international lounge and with international poster presenters during Poster Grand Rounds will allow you to gain a broader perspective of chest medicine.

Other Features

ACCP Simulation Center. Enhance your cognitive, technical, and behavioral skills in a hands-on, clinical environment. Simulation exercises will be conducted in seven clinical areas.

Clinical Care-Focused Tracks. Intensive study will be offered in pulmonary arterial hypertension, interventional pulmonology, COPD, and advanced ultrasonography on Thursday, November 4, so you can immerse yourself in a focused clinical area.

Clinical Resource Center. Formerly the exhibit hall, the Clinical Resource Center will feature hands-on opportunities and presentations to enrich the education sessions.

NEW! For International Travelers

CHEST 2010 international housing is open and features valuable services for international groups and individuals. Take advantage of international housing blocks and all-inclusive travel packages.
